2. If you deem it feasible without substantial change in design, it is requested that an audio amplifier be added as a component in this version of the wire analyzer.

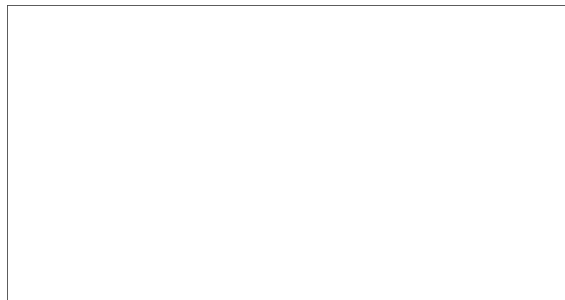

3. Charges for analyzers should be made against allotment number 8-7102-10-000. We would appreciate reviewing the final proposal for the construction of these devices prior to contracting for their purchase.

4. Meanwhile, we urge continuation of your efforts to develop an improved transistorized version of the wire analyzer for future use. We will furnish to you the results of our field tests and evaluations as soon as we have had an opportunity to conduct such tests.
